Let's Explore!

What was Amelia Earhart **born to*** do?

* To be "*born to*" do something is to have the natural ability to do something.

Instructions: Read the text aloud.

In 1920, a young and daring Amelia Mary Earhart attended a flying exhibition where a pilot gave her a ride that changed her life forever. She knew that she was born to fly.

Earhart took her first flying lesson in 1921. She was a hard worker who set her first record 6 months after she started to fly.

In the years that followed, Earhart, a go-getter, continued to break records. She became the first person to fly solo across the Pacific from Honolulu to California.

Amelia Earhart has accomplished many things in the field of aviation. In 1937, she was ready for her biggest challenge. She was confident and determined to be the first woman to fly around the world. On June 1st, Earhart and her navigator Fred Noonan departed from Miami and began a long journey but never returned.

A rescue attempt was carried out but the American government reluctantly called it off. In 1938, a lighthouse was constructed on Howland Island in her memory. Her birthplace, Atchison, Kansas, has turned into a virtual shrine in her memory.
