* To "*accomplish*" something means to complete it successfully.

Instructions: Read the text aloud.

On October 10, 2014, it was announced that Malala Yousafzai won the 2014 Nobel Peace Prize. At 17, she is the youngest person to have received a Nobel Peace Prize. Malala started to speak out for girls' rights at the age of 11, when the Taliban banned girls from going to school in the Swat Valley in Pakistan. Malala courageously defied the rules and kept going to school.

Her life was under threat and at times she had to go into hiding. Finally, at the age of 15 Malala was tragically shot and almost killed by the Taliban on her way home from school. But Malala miraculously survived. The Taliban thought they could silence her but instead have given her an even stronger voice, which can now be heard all over the world.

Malala has continued on her fight to advocate for every child's right to an education. She strongly believes that education is the future, and that one child, one teacher, one book and one pen can change the world.
