India is located in Southern Asia. It borders the Arabian Sea and the Bay of Bengal, between Myanmar and Pakistan. India is made up of 29 states and 7 territories. Of all the countries in the world, India ranks seventh in geographical size but second in population size.

As of 2014, the population of India is 1.3 billion. Many parts of India have their own language. There are 15 languages in all and 844 dialects. English is the language for national, political, and commercial communication. Hindi is the national language and spoken by over 30% of the population. Other languages include Telugu, Urdu, Punjabi, and Tamil.

Hinduism is the dominant religion today in India. It is an ancient religion, believed to have emerged approximately 5000 years ago in Northern India. Then, it spread across India and into Asia.
